- All Pricing quoted is excluding GST unless otherwise stated.
- All pricing quoted is subject to service qualification and ability to deliver service.
  - Pricing may change once service qualification is completed.
  - Nothing is confirmed or contractual until agreement is signed and pricing is confirmed.
- Speeds are up to 1000Mbps / 1000Mbps up and down. Actual speeds relative to server capacity and LAN resources in place.
- Fibre1000 is delivered on AAPT's enterprise-grade metropolitan fibre network, which has been engineered to support the most demanding requirements. It comes with a 99.95% service availability guarantee.
- *FFS charges may apply when terminating fibre into customers dedicated comms room.
  - This will be advised once order is placed and install design is completed by upstream carrier.
- *Ad hoc pricing - $160 + / hr – Min 1 hr charge – billed in 30min increments after first hour.
- Service is fully managed by Key Communications, your referral partner.
- Full access can be given to customer IT support, but CVS must always have access to the router. This will be done via a separate user profile.
